

WHY

We believe that people working in the school system are the ones who are most capable of improving outcomes for all students.

VISION

School systems throughout California work together and learn from each other in innovative, transformative ways, so that all students succeed and are empowered as life-long learners who contribute in a global society.

MISSION

California Education Partners seeds and grows collaborations among California's school systems, so that they innovate, improve, and build internal capacity as learning organization in order to close gaps and lead high performing, equitable schools that serve all students well for the 21st Century.

Model for Improvement

This Collaborative, Continuous Improvement Model acts as a catalyst for student achievement and systems improvement through an instructionally-focused, equity centered shared challenge in a high-leverage problem space.

39 CURRENTLY PARTICIPATING DISTRICTS

Math in Common and CALLI Academic Language, Early Literacy, and High School Mathematics

Cycle of Improvement
