Opt-In Learning Official Strands

Darryl Duke posted on Jun 18, 2015

We are excited about the kick-off of the official Opt-In Learning Strands for 2016-17! Search for the "Opt In Learning Official Strands" page to learn more about getting involved.

[announcement](#)

What Should We Expect?

- Full Day Immersion
- Multi-district collaboration
- Coherence with outcome approach
- Examples: PD strategies
- Alignment w/ CCSS-M & SMPs
- Team time -> develop next steps

What is this strand of work?

The purpose of the Site Visit Consultancy strand is for district leaders to work across district lines on a similar Essential Question that your district is grappling with in an effort to collaborate, learn and build implementation strategies together.

Throughout the year, we plan to conduct a series of Site Visit Consultancies, revolving around an Essential Question, related closely to your prioritized outcomes and our MiC objectives: Vision, Process and Content.

Our goal is that each district in our Community of Practice will host one Site Visit Consultancy a year. Please use the buttons below to share potential ideas.
