

Dinuba Written Update

What progress is your team making toward your desired outcomes? As you reflect on your progress, identify the specific evidence your team has collected that back up your claims.

This is your space to write about one or more of your desired outcomes. Feel free to use the below questions to structure your response.

(1) What data, behavior indicators, or tools have been most useful and /or meaningful in making progress so far?

(2) What surprises or unexpected barriers have emerged? What new questions have arisen?

(3) What changes have you made to your desired outcomes approaches and why?

Is your district participation in this collaboration leading to programmatic improvements that will be sustained over time? What are they? Who has helped you get there (cross-district colleagues, experts, advisers)?
