In this section, we will post reports that are awaiting the review of district research leads or others within each district. Each time a new paper is available for review, it will be emailed out to the CORE data leads. All papers will have a 2-3 week review window. There are no papers available for review at this time. Check out new publications from the CORE-PACE research partnership at <http://www.edpolicyinca.org/projects/core-pace-research-partnership>.
